Three powerful marketing tools to maximize your exposure before,
before, during and long after the show!

Before the Show: A link to the Digital Format of the Program Guide
will be delivered to all pre-registered attendees in advance of the
show to help drive them to your booth!

During Show: Separate yourself from the other exhibitors with this
Full Color, Magazine Size/Style and Quality Show Guide. It is distributed
to all attendees prior to entering the show floor to help drive them to
your booth!

After the Show: Attendees don't leave this Show Guide behind.
Now, back at the office, long after the show is over, it remains as a
Reference Guide to you and your company's services & products
all year!
